

Boom Systems

For Mobile Crushers

THE MASTERS OF MOBILE

Whether your mobile crusher be hydraulic or electric Tecman has a mobile crusher boom system that is custom designed to suit your crusher.

Tecman can design and manufacture a boom system not only to have the correct geometry to break in the crusher, but also to fold within transport dimensions. Or in the case of larger mobile crushers, are easy to break down for transport purposes.

Tecman also offers lifting packages to aid with changing crusher jaw liners and with precise radio control the Tecman mobile boom system becomes not only a production increasing tool, but also a maintenance and safety tool.

Talk to you Tecman representative today about making your mobile crusher produce more.
